EMPOWERING YOUNG PEOPLE TO DISCOVER THEIR TRUE POTENTIAL

BREVARD ENGAGEMENT ACADEMY

ABOUT AMIKIDS

At AMIkids, we're dedicated to helping young people discover their strengths, build lifelong skills, and achieve their goals. Since 1988, AMIkids Space Coast has partnered with communities to provide youth with the tools and support they need to make positive choices and create a successful future.

Our approach is grounded in our Personal Growth Model (PGM), which combines:

- Research-backed strategies in Positive Youth Development
- Proven trauma-responsive practices
- Decades of experience guiding youth toward personal, academic, and social success

The foundation of our work is built on three core Guiding Principles:

1. **Kids First** – ensuring youth are at the center of every decision
2. **Safety** – providing a structured, predictable environment
3. **Family** – embracing a strengths-based, family systems approach
